"Just found you online while checking out our new Florida neighborhood. We just bought a house at Sunset Inlet in Beverly Beach, you know those new three story beach homes north on A1A, and we are exploring the area by internet until we move in, around mid-June. We enjoy your playlist along with the weather and surf reports, news breaks, and local business public announcements. I am a rock/soul guy with Detroit roots, wife is a pop girl who is coming around. (Click "Read More" below)

Just wanted to say hello and that we look forward to the day (soon) when we can actually tune you in with a radio while at the beach! Until then, you are on internet radio in our Corona California home. It will be nice to be back in Florida (previous Orlando resident) Heck, I may even buy a surf board!

yours in residence,
Eric & Wanda"

This is the kind of great response we love to get that shows how much our station means to our listeners. Knowing that we can reach across the continent and help to make Surf 97.3 Flagler's Destination and Tourism Station. Both our local and distant listeners tuning in is one of the many reasons we do what we do. We love our community and are dedicated to it by spreading the word about our wonderful area.
